

As a consumer, citizen, and user of communications services, I ask the FCC to continue to regulate broadband services. I have received broadband services from large telcos in the past and found their service and support to be substandard. I currently receive services from an independent service provider that has an agreement with the large telco providing internet access. I am extremely satisfied with its service and support and think the FCC failing to provide oversight is not in the best interest of consumers and the fiscal health of our country.

Thank you.
